Examination of Application #09/815,129

1. Claims 1-2 of application 09/815,129, filed on 22-March-2001, are presented for examination.

Specification Objections

2. The following is a quotation of 37 CFR 1.71(a)-(c):

(a) The specification must include a written description of the invention or discovery and of the manner and process of making and using the same, and is required to be in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which the invention or discovery appertains, or with which it is most nearly connected, to make and use the same.

The specification is objected to under 37 CFR 1.71 because of numerous grammatical errors throughout the specification. The disclosure appears to be a translation from another language, and contains numerous examples of incomplete or incorrect English-language grammar that render the specification difficult to understand. Appropriate correction is required.

Allowed Claims

3. Claims 1-2 are deemed allowable at this time in view of the prior art of record.
